

ACOUSTIC GUITAR VILLAGE a Cremona Mondomusica

**26 – 28 september 2014
Fiera di Cremona**

Inside the 27th edition of Cremona Mondomusica the guitar will have its own dedicated exhibition area: The ACOUSTIC GUITAR VILLAGE, in which there will be national and international luthiers, small and large manufacturers and distributors of top brands, accessories and publishing.

Why have the Acoustic Guitar Village

Cremona is the home of the violin-making world and the location of Cremona Mondomusica, the international trade show dedicated to the world of hand-crafted musical instruments. The heart of this trade show has always been violin-making, but also casting an eye over other string instruments that offer hand-crafted products of excellence that need to be valued at their best through an international event like Mondomusica. This led to the introduction of the Acoustic Guitar Village that will house high-quality instruments, accessories, publishing and events, all dedicated to the world of the acoustic guitar, classical and modern.
